

LAYOUT: LAYOUT LAB

Kim Goulbourne

AGENDA

- Floats and Clears Review
- Prep for lab
- Lab Time

LAYOUT: LAYOUT LAB

REVIEW

- how do you clear floats? (element vs parent)
- how do you create space between 2 elements while maintaining the parent's overall width (in percentages)
- let's do the last layout challenge together (magazine)

LAYOUT: LAYOUT LAB

LAB TIME

RELAXR SITE PART 2

INSTRUCTIONS:

- Start by drawing your layout as a series of boxes and labeling them with the appropriate tags. (we'll do this together)
- Use your new knowledge of floats and structural elements to create the blog.
- Create a repo for this assignment and submit when finished.

* Bonus: Link your blog page to the first(landing) page you created. The logo should link to the homepage and the blog link the nav should link this new blog page. Note: use different names for your stylesheet if you do this.
